GREAT BASIN DATA ENTRY STANDARD FOR SUPPLIES

1. How to Use this Guide

This guide has been developed to assist you in ordering and filling the ROSS Supply catalog in a Great Basin dispatch office. In it you will find direction on creating and filling NFES, Service and Non-NFES Supply orders, as well as sample resource orders of some commonly ordered Supply items.

Our goal when ordering and filling Supplies is to create a complete document from order to audit in the ROSS system. At this time this means forcing some of the information we require into fields that will print on a resource order. We hope that by standardizing our order and fill information we can provide some consistency across the Great Basin in the processing of Supplies. Standardization is also key for the reports that ROSS generates for IMTs, Buying Teams, GACCs, etc.

If you are an occasional ROSS user and need more in-depth explanation for entering, placing and filling orders refer to the ROSS home page http://famit.nwcg.gov/applications/ROSS

2. Creating New Requests

In ROSS, items under the Supply catalog can be ordered from the following categories: NFES Supplies, Non NFES Supplies and Services. Here are some factors to consider when creating a Supply request.

a. Quantity/# Requests

o ROSS will either show the option for "Quantity" or "#Requests". If the option is "Quantity", you can enter the number of items you want, ROSS will only generate one S#. If the option is "#Requests", ROSS will generate multiple S#s. Be careful not to change the quantity unless you want more than one S#.

b. Blocks

Supply requests are often broken out by block. For example, an incident may have a block of numbers set aside for the buying team, local
purchase, incident replacement etc. Before creating a request, make sure you know what block of numbers you should be using.

c. Special Needs

- The Great Basin uses the "Special Needs" field for a brief description/documentation area. Pertinent information such as model numbers, part numbers, etc. should be entered in clear and concise language.
- o Do not repeat information already supplied in the "Resource Requested" or "Deliver To" fields.

d. Tracking

- Think carefully about whether an item needs to be tracked or not. For payment purposes, the Great Basin tracks the usual service type items (Porta Potties, Refers, Computers, Phones, Radios, etc.) as well as sensitive, non-consumable, high cost items or items that may need to be returned to a supplier.
- When you order an NFES item, ROSS determines whether the item will be tracked or not.
- When a "Service" Category item is ordered, ROSS will only allow you to use the "Fill with Agreement" option (see Filling Requests later in this guide). This will automatically track the resource by mobing it to the Incident Resources screen. Please check the Incident Resources screen on a regular basis for items that may need to be released. Remember that releasing the resource in ROSS does not guarantee the resource leaves the incident. You will need to coordinate and document vendor contacts when demobing resources. This helps to ensure there are no over payments for resources that do not get picked up.
- When you order a NON-NFES Supply item ROSS gives you the option to "Track" the resource. You get two chances to do this. The first is by selecting the "Track Request" button in the New Request screen. If you check the "Track Request" button, remember to UNCHECK it before you create your next order as ROSS does not clear that field. The second chance is when you enter the fill information using the "Fill with Local Purchase" option. You do not get a third chance to track an item after it has been filled.
- o If the "Track" option is not desired and/or selected the order will be "Filled/Closed" after the fill information has been entered. This is the method you will use for consumable items.

e. Buying Team button

o This button appears on Non-NFES and Service requests. Click it if the Buying Team will be purchasing and tracking the order.

3. Filling Requests:

a. Standards

- The Great Basin will follow the National Standards for Data Entry for filling a request when we consider it viable. The standard guideline shows: ITEM "-" Vendor Name "-" Unique Identifier. Since the "Item" is already printing on the left side of the resource order, we don't need to enter the "item" a second time in the Resource Name field.
- The Great Basin uses "Fill with Agreement" and "Fill with Local Purchase". While working at GBCC and Great Basin dispatch offices you will never use "Fill with Requested Item", "Fill with New Resource" or "Fill with Substitution".
- NFES requests are filled by the Great Basin Cache. Some centers may fill NFES supplies placed with the local cache, consult with the local unit for their protocol.

4. NFES Supplies

a. Creating an NFES request to be filled by the Great Basin Cache

Catalog: **Supply** Category: **NFES**

You can search by Item Name, Item Code

(NFES number) or Keyword

Catalog Item: **Select the desired item**Reference NFES catalog as necessary

Note any reminders

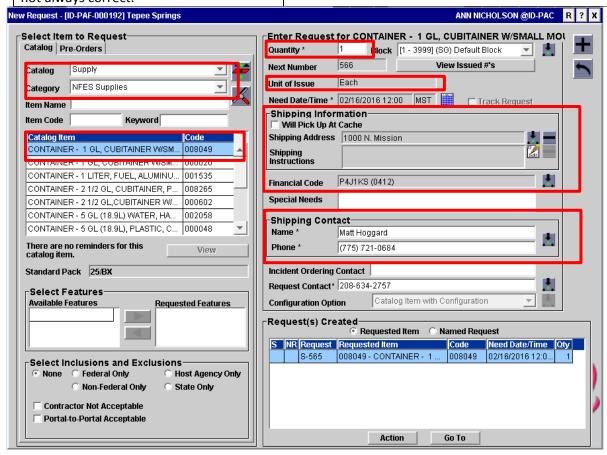

Note the **Standard Pack** – and cross reference with the NFES catalog. ROSS is not always correct.

Pay close attention to **Quantity** and **Unit of Issue** Select **Date/Time Needed**

ROSS will automatically select the **Track Request** button as needed

Select or enter **Shipping Address. DO NOT USE SHIPPING INSTRUCTIONS.** This field does not transfer to ICBS and the cache cannot see it.

Select or enter **Shipping Contact** and **Request Contact**

b. Filling NFES Supply Requests – all orders placed to the Great Basin Cache will be filled in ROSS by them. Some dispatch centers may elect to create and fill NFES orders to their local cache, check for local protocols.

c. The resource order for the request created on the previous page looks like this:

| | RESOURC | E ORDER | | | Initial ate/Time | 2. Incident / | Project Name | | | | | | nt / Project Ord NF-000192 | | | | cial Codes S (0412) [P] S8 | | |

| Req. No. | | | | | | | | Do | cumentatio | n | | | | | | | | Entere | d By |

The information entered when the request was created is outlined in red. A Qty of 1 was ordered, by paying attention to the Standard Pack we know that we have ordered 1 pack of 25 cubitainers. Although the Shipping Address and Shipping Contact do not show on the resource order, they are visible in the ICBS system and the cache has that information.

5. Service

a. Creating a Service Request from the existing ROSS Category

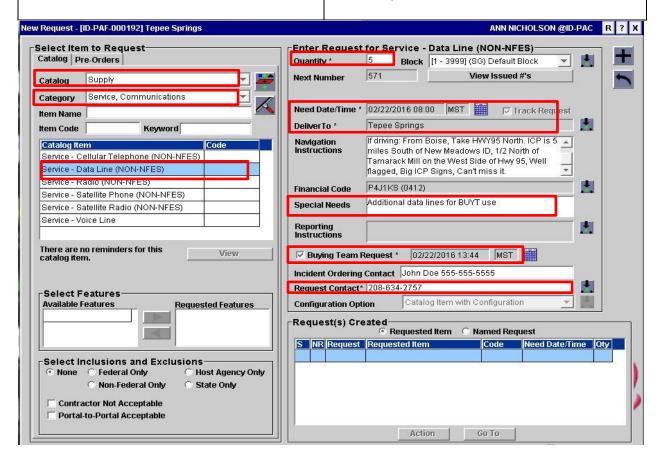

Catalog: Supply

Category: **Service** – ROSS has 8 Service subcategories. If you have need of a Service not in the catalog, see ordering instructions under d. Catalog Item: **Select the applicable item**

Pay close attention to **Quantity**Select **Need Date/Time** and **Deliver To** location
More detailed information can be added in **Special Needs.**

Make sure to check the **Buying Team Request** box if applicable.

Select Request Contact.

b. Filling a Service Request

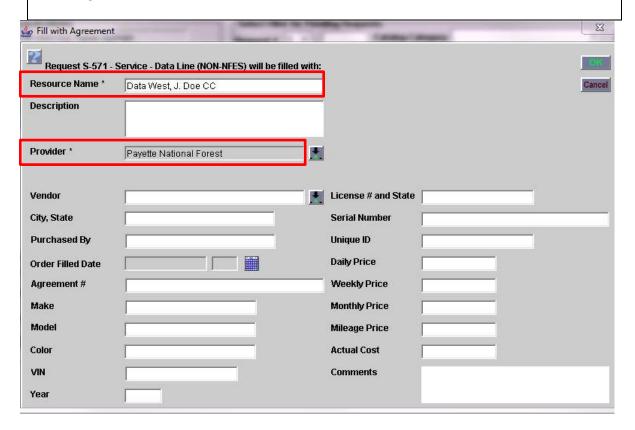

From Pending Request, click Action > Fill with Agreement

The only required fields* are **Resource Name** and **Provider**. At this time its not known what the other fields do, the required fields are the only ones that print on the resource order so that is where we will enter fill information.

For **Resource Name**, enter the vendor providing the service and the payment method (name on credit card or agreement number)

The **Provider** is the agency who issued the credit card or established the agreement.

Enter **Travel** as applicable. Remember this resource will mob to **Incident Resources** screen, don't forget to release it.

c. This is how the Resource Order prints for the **Service** request created and filled on the preceeding pages.

The information entered when the request was created shows up on the resource order in the blocks outlined in red. The information entered when the order was filled shows in the blocks outlined in green.

- 6. **Service not found** in the ROSS Service Category. The Great Basin does not use Service Category Not Listed at any time. If you have need of a Service not listed see below
 - a. Creating a Service Request that is not found in the ROSS Service category

Catalog: Supply
Category: Non NFES
Catalog Item: !Not in Catalog Supplies

More specific descriptions can be entered as Special Needs
Select Need Date/Time and Deliver To location.
Select Track Request if tracking is desired.
Make sure to check the Buying Team Request as needed.
Select Request Contact.

MANN NICHOLSON @ID-PAC R ? 1

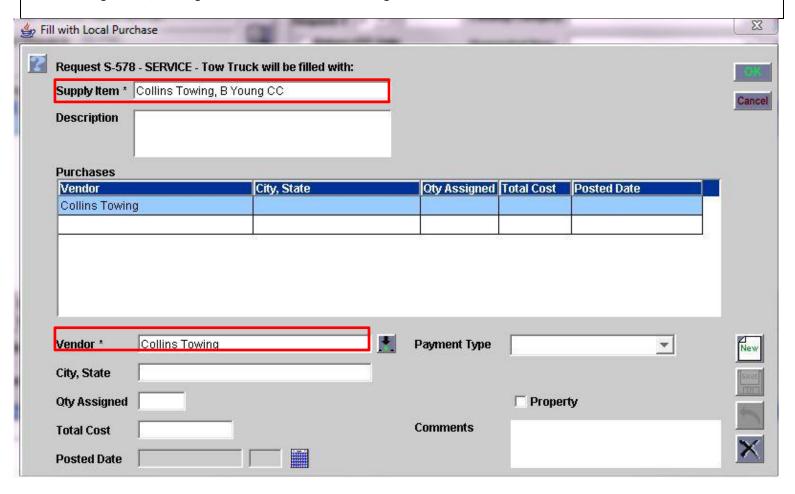

b. Filling a Service Request not found in the ROSS Service Category

Again, the only items that will print on the resource order are the required (*) fields.

The **Supply Item** field will allready be populated with what was entered as the **Item Description** when the order was created. Since that information will print on the resource order in the Resource Requested block, it can be deleted here. Enter the vendor name and the payment method in this block.

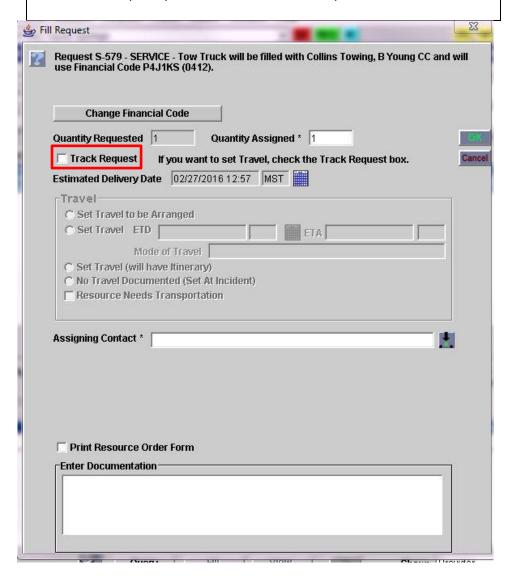

If the vendor does not show up in the **Vendor** block drop down, you can copy and paste from **Supply Item** by highlighting the name, hitting CTRL C, clicking in the **Vendor** block and hitting CTRL V. Click **Save** and then **OK.**

After you enter the fill info, you will be given a second chance to track the request.

If tracking is desired, click the **Track Request** box and enter travel.

This is the last option you will have to track the request.

c. This is how the resource order looks for the Service not found in the ROSS category that was ordered on the preceding pages.

The information entered when the request was created shows up on the resource order in the blocks outlined in red. By adding the word SERVICE ahead of the iltem Desription, we have let ROSS know that we are using a service not in their category. The information entered when the order was filled shows in the blocks outlined in green.

There is no travel as the item was filled/closed.

7. NON-NFES Supplies

a. Creating a NON-NFES Supplies Request

Catalog: Supply

Category: NON-NFES Supplies

Catalog Item: !Not in Catalog Supplies

Enter the **Quantity**

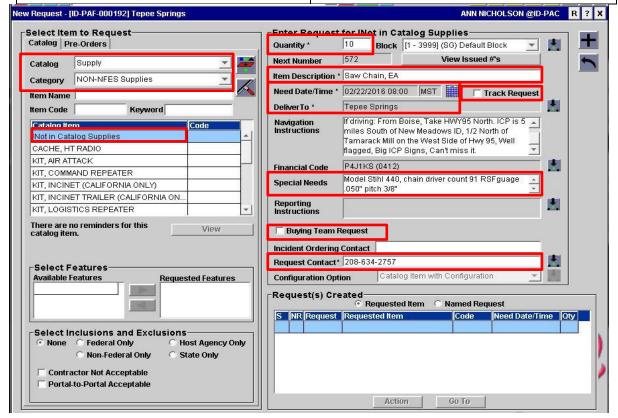

Enter the **Item Description** in concise terms More specific descriptions can be entered as

Special Needs

Select **Need Date/Time** and **Deliver To** location. Select **Track Request** if tracking is desired.

Make sure to check the **Buying Team Request** as needed.

Select **Request Contact.**

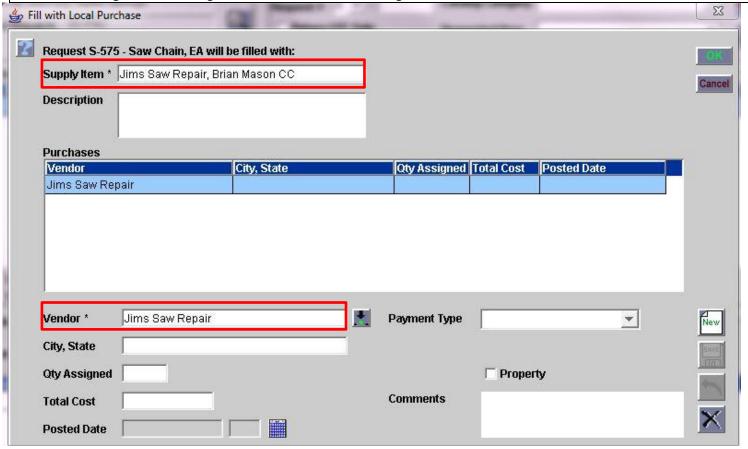

b. Filling a NON- NFES request

Again, the only items that will print on the resource order are the required (*) fields.

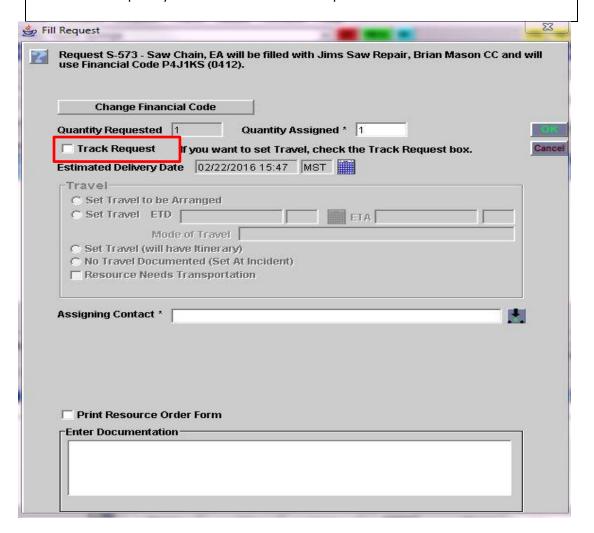

The **Supply Item** field will allready be populated with what was entered as the **Item Description** when the order was created. Since that information will print on the resource order in the Resource Requested block, it can be deleted here. Enter the vendor name and the payment method in this block.

If the vendor does not show up in the **Vendor** block drop down, you can copy and paste from **Supply Item** by highlighting the name, hitting CTRL C, clicking in the **Vendor** block and hitting CTRL V. Click **Save** and then **OK**.

After you enter the fill info, you will be given a second chance to track the request. If tracking is desired, click the **Track Request** box and enter travel.

This is the last option you will have to track the request.

c. This is how the resource order prints for the NON-NFES request created and filled on the preceeding pages.
